Subject: Yankee Nuclear Power Station (YNPS) Amended Phase III – Remedial Action Plan/Phase IV – Remedy Implementation Plan

June 17, 2005  
BYR 2005-055

Dear Mr. Howland:

The enclosed YNPS Amended Phase III – Remedial Action Plan/Phase IV – Remedy Implementation Plan was prepared to summarize the:

- Results of the initial and detailed evaluation of remedial action alternatives and results of the initial screening.
- Justification for the selection of the proposed remedial alternatives.
- Design criteria to be used for the remedial alternatives.
- Plans and procedures for implementation of the remedial alternatives.
- Sampling and analysis plan for to confirm remedial objectives have been met.
- Permits and approvals needed to implement the remedial alternatives.
- Schedule for implementation of the remedial alternatives.
- Health and Safety Plan.

The purpose of the amended Phase III/IV Report is to update the remedial action and implementation plans for the Site based on the most current site data generated during continuing decommissioning activities. This amended Phase III/IV Report specifically addresses reported non-radiological releases identified in soil discovered since completion of the Phase III/Phase IV for the Site.
